ABOUT ME

Born in France and raised in Berlin, Germany, I have been captivated by various creative diiscplines from a young age, including architecture, user interfaces, product and automotive design. After earning my degree in Transportation Design, I expanded my skill set by completing a Full stack Web Developer Bootcamp. Currently i am employed as a 3D automotive designer at Kia, where I combine my passion for creativity with cutting-edge technology

I am eager to expand my knowledge in the field of automotive design and gain comprehensive experience in leading a team

EXPERIENCE

Kia Corporation Traineeship (18 Months / 2023-2024)
- Exterior and Interior Facelifts
- All-new Interior and Exterior Designs:
  Due to my dedication and skills, I gained enough trust to be appointed as the lead modeler while assisting in the creation of new vehicle designs from concept to execution, collaborating with the team to ensure cohesive and innovative designs.
- Head-Tailights Detailing:
  Incorporating advanced lighting technologies and ensuring compliance with regulatory standards.
- Rim Designs:
  Designed various sets of rims, focusing on aesthetics, weight reduction, and performance improvements.

ESMT Berlin (3 Months / 2022)
- Development of a Front/Back End Application helping students regain the ability to socialize after Covid.
